

ERICSON

LABORATOIRE PARIS

COSMECEUTICALS EXPERT SINCE 1962

Founded in France in 1962, ERICSON LABORATOIRE combines scientific avant-garde with high-concentration innovative formulations. The recognized effectiveness of our cosmeceuticals, inspired by the latest advances in aesthetic medicine, offers a powerful, personalized and unique beauty experience.

Our professional treatments are performed exclusively in accredited beauty salons by expert beauticians trained in our protocols. They will recommend the best treatments to address all your beauty, youth and slimming concerns, and will advise you on the products to use at home to extend the benefits.

*I wish you a
unique beauty experience!
Gilles Canton*

A FRENCH COSMECEUTICAL APPROACH BASED ON A SCIENTIFIC HERITAGE

1962

The story of the ERICSON LABORATOIRE brand begins in Paris in 1962. The collaboration between Professor Ericson, a researcher in cellular biology, and his wife, a renowned beautician, lead to the creation of skin care formulas inspired by the advances in regenerative medicine and tissue repair.

1983

Over the years, the French brand remains faithful to the Professor's innovative approach. In the 1980s, it establishes itself in France as a cosmeceuticals pioneer. The formulas incorporate dermatological and biotechnological active ingredients, enhanced by skincare protocols inspired by aesthetic medicine techniques.

2000

The totally innovative care concept combined with the exceptional know-how of partner beauticians is at the origin of ERICSON LABORATOIRE's success and international expansion. The brand attracts the most prestigious beauty care centers and hotel SPAs in the world.

2022

ERICSON LABORATOIRE offers nowadays a very complete range of face and body products that allow for the creation of highly personalized treatment protocols. Available in France in 480 beauty salons and internationally in more than 50 countries, the brand continues to build up the loyalty of a demanding public.

AN EXCLUSIVE METHOD AND A UNIQUE PERSONALIZED SKINCARE EXPERIENCE

Inspired by the latest techniques in aesthetic medicine, our scientifically tested face and body care products and protocols offer solutions adapted to your needs and your skin type.

Our formulas are highly concentrated in innovative active ingredients integrated in ultra-sensorial textures, to offer both performance and pleasure. Combined with cutting-edge techniques and the professional expertise of our beauticians, they allow you to benefit from perfectly personalized care protocols for immediately visible results.

You can then prolong the instantly visible benefits of your professional treatments at home thanks to a precise prescription of selected products from our different ranges.

UNDERSTANDING SKIN COMPLEXITY FOR PERSONALIZED SKINCARE PROGRAMS

PUR OXYGENE

ACTIVE POLLUTION PROTECT

The expert D-tox protocol for a radiant, healthy looking skin

Pur Oxygene helps protect the skin from the various forms of pollution that weaken the skin barrier and accelerate premature aging. Its global anti-pollution technology helps repair visible damage caused by environmental aggressions. With improved protection from oxidative stress on a daily basis, the skin glows with radiance and health.

HYDRA ADVANCED

H₂O DIFFUSION SYSTEM

High performance hydra-repair powered by science

Ericson Laboratoire goes a step further in its cutaneous hydration expertise, with a range offering high active ingredient concentrations to simultaneously act on the various parameters of the skin's moisture capital. The HYDRA ADVANCED formulas help to restore, preserve and optimize the hydro-lipidic balance of dry and dehydrated skin, by supporting its natural hydration mechanisms and strengthening the epidermal barrier.

BIOLOGIC DEFENSE

SKIN ECOLOGY BALANCE

The expertise of the cutaneous ecosystem for a balanced, healthy and resistant skin

Ericson Laboratoire takes its inspiration from the principles of skin ecology, which are essential for supporting the skin's natural defense mechanisms. The BIOLOGIC DEFENSE range contributes to preserve the microbiome balance: the billions of micro-organisms essential to the cutaneous ecosystem to ensure a healthier and more resistant skin day after day.

VITAMIN ENERGY

SKIN RECHARGE DYNAMICS

The revitalizing and anti-fatigue cosmeceutical protocol inspired by mesotherapy

The benefits of mesotherapy, which consists in micro-injections of vitamins, have inspired Ericson Laboratoire to develop revitalizing boosting treatments. VITAMIN ENERGY is a range developed for tired skin, allowing it to regain vitality and radiance thanks to an exclusive cocktail of energizing and rejuvenating active ingredients.

Professional salon treatment

- Revitalizing and energizing treatment designed for tired and dull skin lacking radiance
- Combines energizing vitamin-rich formulas with a high frequency vibration-based toning massage
- The skin looks visibly energized, toned and radiantly glowing

* Test carried out with 23 female volunteers aged 25 to 35, with twice-daily application of a 1.5%-concentrated HTAC BOOSTER (Early Boost) gel, result after 48 hours.

SLIM FACE LIFT

ABSOLUTE CONTOUR DEFINITION

The "lift effect" cosmeceutical solution for slimmer and redefined looking face contours

Ericson Laboratoire has designed a range to counteract the degradation of the skin's elastic fibers and limit the accumulation of fat, which accentuate cutaneous sagging. The specific anti-aging SLIM FACE LIFT range combines tensor peptides and lipo-remodeling active ingredients for visibly toned features and a slimmer, redefined-looking oval of the face.
