

Moisturized, soothed, revitalized, your skin regains its radiance

LOOKING FOR A CARE FOR YOUR DULL AND TIRED SKIN ?

Discover the **4 complementary products** of the **Radiance range** to take care of your skin and restore its natural radiance. Formulated to act efficiently, this routine **soothes** and **revitalizes** your dull and tired skin.

AN EXCLUSIVE VITAMIN COMPLEX

Organic Carrot extract (Vitamin A)
An essential ingredient for a luminous and radiant complexion.

Organic Centella Asiatica extract
Repairing, it evens out your complexion to make it more beautiful.

Organic Rosemary extract
Purifying, it cleanses your skin while soothing it.

Organic Calendula extract
Rich in antioxidants and vitamin A, it soothes and brightens your complexion.

HUNGARY'S ROYAL WATER LOTION

Inspired by the secrets of Donna Isabella, **Queen of Hungary**, this **exceptional beauty water** rich in Rosemary distillate whisks you off to a provençal garden. It wraps your skin in a **fine, fresh mist**.

Spray the lotion about 25cm from your face or body, morning and evening and throughout the day, to **refresh** your skin and bring out its **radiance**.

SUBLIME RADIANCE SERUM

This **radiance-boosting** aqueous serum, rich in vitamins, has been specially formulated to **brightens your complexion** and restore **firmness** and **suppleness** to your skin.

On a cleansed skin, apply a dab of serum with light tapping motions.

SUBLIME RADIANCE CREAM

Sublime Radiance Cream has the combined benefits of plants. It is recommended to **boost the complexion's radiance**.

Every morning, apply on a perfectly cleansed skin with light circular movements to face and neck.

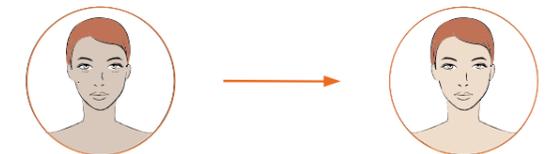

SUBLIME RADIANCE ELIXIR

This oil-based **beauty elixir** rich vitamins and active plant ingredients gives your skin **vitality** and **tone**, leaving a delicate floral fragrance.

Morning and evening, apply 3 drops of elixir to the face and neck, then massage in with light, circular, upward movements.

3 ACTIONS FOR A RADIANT COMPLEXION

A **dull complexion** means that the skin is **tired, greyish and lacks radiance**. This can be caused by a lack of sunlight but not only, there are other reasons: lifestyle, diet, lack of sleep, lack of physical pollution, stress...

Your routine focuses on 3 actions to revitalise and soothe your skin

A good cleansing of your skin is the first step for the application of the products of the **Centella Radiance** range.

1 MOISTURIZE

A good **hydration** is essential, apply your care by **massaging** your skin to **tone** it gently. The massage will activate the **cellular renewal** of your face. Your skin will be **more colourful and radiant**.

SOLUTION

Centella Asiatica is well known for its **exceptionnal soothing and repairing properties**. It promotes the **collagen synthesis** and thus helps to restore the **elasticity** of your skin. Its combination with **Aloe Vera**, with its **intense moisturizing** properties, fights against **skin dryness** and **soothes** your skin.

2 TONIFY

Tired skin can be characterized by a **lack of tone**, so it is important to **tighten** it to restore its **vitality** and **natural radiance**. Refreshing your face with a spray of lotion in the morning helps to **tighten pores**, **reduce puffiness, swelling** and **lift the complexion**.

SOLUTION

Rosemary is known for its **astringent, toning and purifying** properties. It **soothes** the skin and helps to restore a **radiant complexion**. Acting in synergy with **Calendula**, it visibly improves the quality of your skin, revealing a **smooth** and **illuminated** face.

3 NOURISH

It is important to provide your skin with **nutrition** while **soothing** it. This will allow your skin to absorb all the nutrients it needs and make it **more radiant**. Thanks to the nutrition, it will be **more protected** and less sensitive to skin fatigue and lack of radiance.

SOLUTION

Carrot, rich in **Vitamin A**, is a major **antioxidant** agent. It ensures a good cell regeneration, increases skin's **elasticity** and delays the appearance of the signs of ageing for a **fresh radiant complexion**.

CENTELLA BRAND

In nature, the secrets of your beauty

Since its creation in 1972, Centella has offered a wide range of **phyto-aromatic** cosmetic products based on **essential oils and active plant ingredients** including **Centella Asiatica**. Known for centuries for its exceptional properties, this plant has not yet revealed all its richness !

Thanks to decades of **expertise in natural and organic cosmetics**, Roig Laboratories are constantly innovating so that Centella can offer you **ever more effective** formulas, inspired by this rich nature, for your beauty.

ROIG LABORATORIES

A supportive and challenging company

In order to offer you the best quality and efficiency, our **raw materials are carefully selected**. For example, vegetable oils are obtained by first cold pressing. This traditional mechanism consists of pressing the fruits and seeds of the plant at room temperature to obtain an oil. Thus obtained, the oils do not have any chemical modification or denaturation and are therefore of superior quality, **rich in active ingredients, good for your skin and the environment**.

Since 2011, we favour the use of **Organic and Fair Trade** raw materials.

Sublime Radiance Cream and **Sublime Radiance Elixir** are Fair for Life certified. This certification guarantees the control and traceability of our supply channels, as well as the payment of **fair incomes** to the staff of production cooperatives, who are mainly women.

These two products contain more than 10% of **Organic and Fair Trade** certified raw materials:

- Hazelnut oil
- Sesame oil
- Shea Butter*

*Only in the cream

A responsible and committed company

Your satisfaction has always been our priority. Carefully selected, your Centella products favour **ingredients of natural origin**. The laboratory is also concerned about the impact of its packaging on the environment and takes the following actions:

All packaging used are recyclable: airless, pump bottle, glass...

Eco-designed cases, made with **PEFC paper** (sustainable forests).

Use of corn - based protection chips : recyclable, compostable and 100% biodegradable.
